New York Stock Market

New York, January 31.—Extreme hassitude settled upon the stock market
to-day, seemingly as the after effects
of last week's volent excitement. The
dealings fell nearly to the point of
stagnation for a good part of the
day's session. In spite of the letharry
of the demand, prices suffered little,
the late selling coming after cofficients
crable gains had occurred. The professional element made one or two
efforts to bring about a movement of
prices, but the lack of orders for investment became plainly evident, and
the market was allowed to drift. News
from Paris advised of the passing of
the greatest flood ever experienced.
A sharp fall in the rate of steriling
exchange in Paris gave notice of the
movement or recall of credits to take
up the work of repair in the French
capital. The continued expansion of
bank loans showed by Saturday's
weekly statement indicates some still
unsatisfied requirement, which the
stock market liquidation has not sufficed to meet.

There was some languid discussion
of the dividend action likely to be
taken at the Pennsylvania meeting tomorrow, the weight of opinion being
against any increase. A rise in the
price of copper metal in London, helped that group of industrials. The advance in Reading was unexplained by
any news. Reports of wage advances
on one or two of the Eastern railroads
were regarded as significant of the
course of ovents, The professional
limitations of the market were indicated by the sudden reversals of the
day's regular upward movement in
the last half-hour, when United States
Steel and Union Pacific fell abruptly
2 points below the closing prices of
Saturday.

Bonds were steady, Total sales, par
